PLANNING & PROMOTING YOUR CAREER SINCE 2003

Managing Director

Dear Students

Effective teaching systems and learning programs are the basics to build a foundation for a brighter future of every individual. Creative talent is everywhere and their strengths can be further boosted by appropriate programs.

As per management guru Peter Drucker, learning is a lifelong process of keeping abreast of change. And the most pressing task is to teach people how to learn.

At Deeksha, for better concept clarity, contextual familiarity and application expertise, innovative teaching techniques and modules have been incorporated to enable success. Our teaching method helps the students to question their preconceptions and motivates them to learn, by putting them in a situation in which they come to see themselves as the authors of answers, as the agents of responsibility for change. To have effective teaching, our faculty members are good mentors in providing ideas, insight, and the best strategies for students who are passionate about every success in their life. They focus on developing the right sets of skills and provide training to sharpen them further.

We never lose sight of our ability to captivate and convince to provide knowledge – knowledge that is capable of changing minds as well as hearts. We strongly believe that Deeksha nurtures your dreams to become professionals in this competitive world and your dreams are our inspiration and your destination to accomplish dreams is our goal.

I, on behalf of the entire team Deeksha, welcome you to join us and feel the blend of quality and innovation which will enable you into a world-class professional.

Wish you all the best for your endeavour.
